Parent Forum

EARLY MATHS

Join us for this important workshop where we will explore how we develop meaningful maths skills with our children and foster in them a confidence that we are good at maths!

Let's change the attitude that it's okay to be bad at maths. Let's explore what early maths looks like and how you can help support development at home in the same way we are teaching your children at nursery. Join us afterwards for some quality time in the nursery to do some activities with your child.

Rebecca Cheetham Nursery School

Wednesday 18th November 2026

9:00am or **1:00pm**

both sessions are face to face with the option to spend time with your child in the nursery afterwards (if your child has settled into the provision sufficiently).

PLEASE CALL TO BOOK A SPACE
