

# School of Family

# SCIENCE DAY

Science is one of the STEM subjects (Science, Technology, Engineering and Mathematics) and it is a very important part of the Early Years curriculum and one of the most interesting, especially when it comes to experiments.

Please come and join us on **Wednesday 13th March 2024** as we take children through a range of exciting experiments and spend time developing science conversation skills, helping children to talk about transformations and how things happen or change. Please note, these sessions are suitable for **Cooke, Donaldson and Jeffers** Room children.

**Rebecca Cheetham  
Nursery School**

**Wednesday 13th March 2024**

**10:00am - 11:15am**

**or**

**2:00pm - 3:15pm**

**BOOK YOUR PLACE AT THE FRONT OFFICE**
